

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211\CPI

☒ All GE foods should be labeled so I am informed and have a choice.

☒ GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment.

(Additional Personal Comments:)

It disgusts me to think I have eaten food without knowing if it has been Genetically modified. If ingredients and vit. & minerals are listed, we have the right to know if its a GMO!! I choose to eat all organic food. If oncolwaq ya!
